

WORKSHEET

Water resources

Date
Location
1) Note down any natural freshwater resource : springs, lakes, streams, rivers, wetlands, etc. For each one of them answer the following : A) Name (if there is) B) Any human activities nearby? If yes, exactly what? C) Any comment or observation that you want to take a note of it
2) Note down the "conventional" water resources : reservoirs, dams, artificial lakes, public taps, boreholes and wells, etc. For each one of them answer the following : A) Name (if there is) B) How is the water used? C) Any comment or observation that you want to take a note of it
3) Note down any "non conventional" water resources : desalination unit, rainwater harvesting tanks, wastewater treatment plants. Για κάθε έναν από αυτούς απάντησε στα εξής: A) How is the water used? B) Any observation on the landscape and traces of human activity around (settlements, factories, etc.)

WORKSHEET

Water resources

OUR MAP OF WATER RESOURCES OF OUR AREA

Draw an outline of the area that you explored. Mark the water resources using different symbols e.g. for dams, rivers, etc. and don't forget to make a memo explaining the map; symbols.
